

KY Statewide Waste Tire Collection Events

Presented by: Grant White

How the Waste Tire Program Began

- In 1998, the General Assembly passed HB 32 which created the waste tire control program and established the Waste Tire Trust Fund, which was to be used to eliminate existing waste tire piles and prevent the creation of future waste tire piles. The funding is generated by a \$1.00 fee per new tire sold at retail throughout the state. This program has been reauthorized five times, the last was placed in the two year Revenue Bill. Additionally, the Waste Tire Program creates a market for waste tires.

Waste Tire Collection Introduction

- Over 20 million tires have been collected since the programs inception in 1998
- RAS continues to receive positive feedback from the community and local officials regarding the success of the program and the opportunity afforded to citizens
- RAS will conduct a WTCE informational meeting with each ADD involved that spring or fall typically 1-2 months before the events are scheduled to begin. At these meetings the County Judges, SWCs, DOH staff, DEP Regional Offices and the Contractor will be provided all necessary information including a “tentative” schedule for the upcoming events
- The Waste Tire Collection Events are three day events conducted on Thursday, Friday and Saturday
 - Times vary according to county but should typically be held between the hours of:
Thursday & Friday : 8am-4pm / 9am-5pm
Saturday: 8am-12pm / 9am-1pm

Waste Tire Collection Event

SOP Guidelines

- Identify Project Coordinator
 - Attend Training Meetings
 - Sign and Return Agreements
 - Utilize Multi-Media Advertising and Strictly Adhere to the Times Advertised
 - Note in Efforts, jointly sponsored with the Division of Waste Management
 - Minimum of Four (4) persons on site to assist during event
 - Monitor Eligibility of Participants (No Retailers, Scrap Dealers, Salvage Yards)
 - Determine Location of Event (State DOH Garage, County Garage, Etc.)
 - Assist in Management of Tires During Event
 - Ensure Traffic Safety
 - Identify Large Accumulations Prior to Event (2,000+ tires with tractor trailer accessibility)
 - Any Eligible Kentucky Resident May Participate
-
- For citizens with large truck loads, DWM suggests that you require them to bring assistance to unload. If you have multiple calls you may want to schedule their drop off time.
 - Assist in segregating tires according to type as they are unloaded. This enables the Contractor to load in a safe and efficient manner. (Tractor, Truck, Passenger, Rims)
 - Utilize inmate labor if possible to assist during the collection event.
 - County may utilize their own equipment if so desired to help manage tires during the event.
 - This is a County sponsored event. Sell it as such, with the assistance of the Division of Waste Management. DWM provides coordination with the contractor and is the final voice on any conflicts that may arise.
 - Following the event, total numbers will be published and made available to you, including the percentage of change in your county.
 - **Can Accept: Tires on and off rim, including farm implement, bicycle, motorcycle, go-cart, ATV, Tractor, Truck and Passenger**

Cannot Accept: Large OTR, tracks, sheet rubber, solid, calcium or otherwise filled, or any tire with a bead greater than 1 3/4 inches

Waste Tire Contract

- Liberty Tire
 - Marion, KY
 - Current Contract Price \$158.00/ton
 - The contract is valid for one (1) year, with the option to renew up to four (4) years, totaling five (5) years before rebid.
 - The current contract will expire January 2017

Lincoln Trail, Lake Cumberland ADDs

Fall 2019

Buffalo Trace, FIVCO ADDs

Agreement with the State

2016 KENTUCKY WASTE TIRE MANAGEMENT PROGRAM AGREEMENT

ENERGY & ENVIRONMENTAL CABINET 2015 Waste Tire Management Program

We, XXXXX County, hereby agree to the following conditions for the 2015 Kentucky Waste Tire Management Program authorized under KRS 224.50-880. The tire funds shall be used for the direct costs associated with the waste tire removal and processing as specified in the state's contract awarded through a procurement bid process.

1. OBLIGATIONS OF THE COUNTY

We, the XXXXX County Fiscal Court, understand and agree to the following:

XXXXX County shall undertake the following obligations:

- 1.1. XXXXX County shall designate and identify to the Cabinet a project coordinator by August 1, 2013 to administer the waste tire management program.
- 1.2. XXXXX County shall participate in the training and planning program conducted by the Cabinet through local Area Development District agency.
- 1.3. XXXXX County shall conduct a multi-media program including but not limited to newspapers, radio, and local cable TV to educate its citizens on correct waste tire management and promote the waste tire management program. XXXXX County shall also enlist the cooperation of any local agency, including, but not limited to, the local health department, Farm Bureau, Federal Farm Services Agency, conservation district and XXXXX County extension agent in the educational and promotional program.
- 1.4. XXXXX County shall note in all of its promotional efforts that the Waste Tire Management Program is jointly sponsored by the state Division of Waste Management and XXXXX County.
- 1.5. XXXXX County shall provide a "MINIMUM OF THREE" (3) staff during the scheduled management program weekend that consist of three days (DATE) to unload waste tires from program participants' vehicles and/or trailers and "ONE" additional person to greet program participant,

provide direction and answer questions.

- 1.6. XXXXX County shall monitor the eligibility of program participants.
- 1.7. XXXXX County shall, if it so chooses, or if the Cabinet is unable to schedule the DOH facility, designate an alternate central staging area no later than DATE, 2015.
- 1.8. XXXXX County shall accept and assist in management of waste tires at the central staging area in a manner that will make them easily accessible by the Contractor and work with the contractor to manage the waste tires during the event.
- 1.9. XXXXX County shall provide access for traffic safety at the central staging area so designated and comply with substantive provisions of the state program for the storage of waste tires.
- 1.10. XXXXX County shall, where necessary, assist eligible participants in the management program with the transportation of waste tires to the central staging area.
- 1.11. XXXXX County shall identify tractor-trailer accessible accumulations of 1500 to 5000 waste tires, calculated in Passenger Tire Equivalents in XXXXX County not later than fourteen (14) days prior to the County's scheduled event.
- 1.12. XXXXX County shall also identify any accumulations of more than 5000 waste tires, calculated in Passenger Tire Equivalents, and accumulations of between 1500 and 5000 waste tires that are not tractor-trailer accessible in XXXXX County not later than fourteen (14) days prior to the County's scheduled management event for future cleanup efforts.
- 1.13. XXXXX County shall perform any necessary tasks to ensure the proper operation of the waste tire management program not specifically listed in this agreement.
- 1.14. XXXXX County shall cooperate fully with the Cabinet in order to facilitate the obligations set out in this AGREEMENT, including but not limited to allowing the Cabinet to inspect all records pertaining to the project at any time.

Agreement with the State cont'd.

1.15. **Xxxxx** County shall begin the planning phase of the project upon its acceptance of this Agreement, and shall complete the project no later than **DATE, 2015**.

1.16. **Xxxxx** County shall return the signed agreement to the Cabinet not later than **DATE, 2015**.

2. OBLIGATIONS OF THE CABINET

The Cabinet shall undertake the following obligations:

2.1. The Cabinet shall designate a primary contact person for the management program.

2.2. The Cabinet shall select a Contractor to load, transport, and recycle tires accumulated by

Xxxxx County through the waste tire management program located at the central staging area and/or any approved special staging areas.

2.3. The Cabinet shall require the contractor to have each truck load of waste tires weighed at an independent certified scale and provide a report of all loads hauled by the Contractor under the waste tire management program and will provide a summary to the county.

2.4. The Cabinet shall conduct a management program training and planning session for participating counties through each state Area Development District.

2.5. The Cabinet, where possible, will schedule the Kentucky Transportation Cabinet, Department of Highways (DOH) highway maintenance facility in each county as a central staging area where waste tires can be brought by parties eligible to participate in **Xxxxx** County's waste tire management program.

2.6. The Cabinet may designate tractor-trailer accessible accumulations of between 1500 and 5000 tires as special staging areas to be serviced by the Contractor, subject to the county's obligations following.

54,467 tires

Bourbon Co. WTCE

Spring 2015

21,191 tires collected

Statewide Off-Sites

- Currently there are three outstanding off-sites that have not yet been completed:
 - Meade, Spencer and Estill Co.
 - Estill County is currently in the process of being cleaned
- The state works in conjunction with the county in order to clean these sites
- The site must consist of a minimum of 1500 tires before it can be considered an off-site tire pile and use grant money to clean the property

Estill County

Estimated 20,000 tires

Estill County
